

The screenshot shows the ILLIUM v1.0.0.0 application window. At the top, there's a menu bar with File, View, Edit, Tools, Windows, and Help. Below the menu bar is a toolbar with icons for opening, saving, printing, and other functions. The main window is divided into several sections. On the left, there's a list of corrections with checkboxes for Dratts, Pending, and Active. The Active list contains three items: L1: ("4307296") or ("4947509") or ("5283628"). PN, L2: (513092) interter or intertere or interfering or i, and L3: (63788) (optical) adj (fiber or fibre). On the right, there's a search table with columns: Type, L #, Rite, Search Text, DUS, Time Stamp, Comments, and Error D. The table contains nine rows of data, each representing a correction. The first row is for L1, and the others are for L2 and L3. The search text for L1 is "((\"4307296\") or (\"4947509\") or (\"5283628\")) . PN.". The search text for L2 is "interfer or interfere or interfering or interference or interferometer or interferometry or interferometric". The search text for L3 is "(optical) adj (fiber or fibre)". The DUS column contains values like USPAT, US-PGPUB, and US-PAT. The Time Stamp column contains values like 2003/11/05 15:42, 2003/11/05 15:43, and 2003/11/05 15:46. The Comments column is empty for all rows. The Error D column contains values like 1, 2, 3, 4, 5, 6, 7, 8, and 9. At the bottom, there's a status bar with the text "Ready" and a small icon.
